

Proceedings of the “Awareness workshop on REBs and Better Feeding, Firing and Operating Practices” held on 22-11-11 at Nawanshahar (Punjab)

The workshop on “Awareness on REBs and Better Feeding, Firing and Operating Practices” for the brick kiln owners of District Nawanshahar was organized on 21.11.2011 at AB Fast Food Centre, Rahon (Nawanshahar). The workshop was attended by around 25 brick kiln owners and 30 workers representing 40 brick kilns from the District Nawanshahar. Mr. Ashok Laroiya President, welcomed the participants and the PSCST team. He appreciated the role of Council towards continual support to the brick industry since 1998.

Er. S.K. Jain, Additional Director (CC), PSCST in his address emphasized on the need of adoption of better Feeding, Firing and Operating practices in the kilns. Further he asked kiln owners to start looking for alternatives of brick moulding and mechanized technology. He further informed that mechanization would help them in producing variety of products like Resource Efficient Bricks (REBs) which can bring in saving of 20-30% of raw material like clay and coal.

Er. Pritpal Singh, Senior Engineer delivered lecture on better Feeding and Combustion practices which would not only save environment but also would result in production of better quality of products. Case studies of good working practices and its benefits were discussed. Further, participants were

informed regarding the future construction material like Resource Efficient Bricks, its production process and benefits to industry. The participants particularly the workers expressed their keenness on REB production.

In the afternoon participants were taken to the brick kiln wherein various sources of energy losses were shown and practical demonstration of better feeding & operating practices was given. Association thanked the council engineers for imparting useful information and expressed its keenness to participate in future endeavors also.

List of attendees is attached as Annexure-1

List of Brick Kiln Owners and Fireman (partial) participated during Awareness Workshop on REBs and Better Feeding, Firing & Operating Practices at brick kilns on 22/11/2011 at Nawahshahar (Punjab)
